4.4.2 Policy Document

Maintenance and utilization of infrastructure

Our institution is very much committed to develop qualitative and state of art infrastructure and made available for effective teaching-learning process. Our society is developing the infrastructure as and when the new programmes are introduced. The college prepares and sends the proposals to the 'Funding Agencies' to get the funds, and after receiving the funds the infrastructure development committee gives the approval for the utilization. Afterwards we invite tenders or quotations and the lowest bidder will be accepted after taking the undertakings from the vendors for completion of work according to the standard fixed by the society. In every stage of the work, quality is strictly observed. The infrastructure development committee is also taking care of utilization, up keeping and maintenance of the infrastructure. The procedures are as fallows for the infrastructure:

1. Prepare the proposals for seeking funds from the agencies.
2. Placing the proposal before the committee for consideration.
3. Getting the approval from the society.
4. Submitting proposal through proper authority.
5. Getting sanction of the funds from the agencies.
6. Inviting the tenders or quotations.
7. Preparing the comparative statement.
8. Issuing the work order after receiving the security deposits and getting under takings.
9. Supervising the work.
10. Ensuring optimum and effective utilization of the developed . infrastructure.

ANNEXURE-II

TERMS AND CONDITIONS OF ISSUANCE OF AUTHORISATION

- 1. Source Receipt Intimations:** Source receipt intimations should be sent by the Consentee to this Division within one week following the receipt of the source as per the prescribed format.
- 2. Radiation survey meter:** An appropriate radiation survey meter, if not available, should be procured by the Consentee within one year from the date of issuance of the authorization.
- 3. Radiological Safety Officer (RSO):** In case a Radiological Safety Officer approved by AERB is not available in the institution, an employee of the institution who has successfully completed the appropriate training course on safety aspects of Research Application (for admission to which Head, Radiological Physics and Advisory Division, BARC, CT&CRS, Anushaktinagar, Mumbai 400 094, Tel -022-25515040, 25519209 may be contacted) or a course deemed equivalent by AERB should be nominated by the Consentee as the Radiological Safety Officer (RSO) of the institution, within one year from the date of issuance of the authorization.
- 4. Responsibilities of employer, consentee (licensee) and RSO:** The regulatory responsibilities of the employer, Consentee (licensee), and the RSO are laid down in the Atomic Energy (Radiation Protection) Rules, 2004. If the Consentee or the RSO leaves the institution or is transferred to another department of the same institution or ceases to be in a position to discharge their duties in respect of the radiation sources in the institution, the same should be brought to the notice of AERB.
- 5. Disused sources:** When a source, is no longer in used for the authorized purpose, or upon completion of its useful life, the source should be returned to the original supplier, in accordance with the procedure for the same laid down by AERB. In respect of imported radioactive sources, specific prior permission for re-export of the same should be obtained from AERB.
- 6. Storage of source not in Use:** When not in use, (before installation or during service and maintenance or pending disposal) the device housing the source should be stored in an exclusive safe and secure storage area/room.
- 7. Responsibility as to the safety and the security of the source:** From the date of issuance of this authorization up to the time of disposal of the source, the safety and security of the source is the sole responsibility of the Consentee.
- 8. Sale or transfer of source:** The source should not be sold or otherwise transferred to another person without obtaining the specific authorization from AERB.
- 8. Shifting of source within the same premises:** The source should not be shifted from the location where it was intended to be used as indicated in the application for issuance of authorization, without obtaining specific prior consent from AERB.
- 10. Transport of the source outside the premises:** The source should not be transported out of the location where it was intended to be used as indicated in the application for issuance of authorization, without obtaining specific prior consent from AERB and upon obtaining such authorization, the source should be transported in accordance with the mandatory requirements for the safe transport of radioactive material.
- 11. Incident involving the source:** If an incident involving the safety and / or security of the source occurs, the same should be intimated to AERB within 24 hours of the occurrence of the incident. In the event of loss or theft of the source, the matter should also be reported to the local police within 24 hours of occurrence of the incident.
- 12. Periodic Status Report:** The periodic status report of the radiation sources in the possession of the institution shall be submitted to AERB.
- 13. The unique device number (wherever applicable), when allotted, should be clearly inscribed permanently on the exterior accessible surface of the source housing.**
- 14. Non-Utilization of Authorisation:** In case of non utilization of this authorization, it should be returned to AERB within one month from the date of expiry of the authorization in original.
- 15. Penalty:** The consent can be withdrawn, amended, revoked or suspended by AERB, as specified in the Atomic Energy (Radiation Protection) Rules, 2004, if any of the terms and conditions of the consent is contravened. Where deemed appropriate, AERB may initiate penal action as provided in the Atomic Energy Act, 1962 against the concerned institution in the event of offences.

Dear Sir,

Thank you for your Valuable enquiry. As per your requirement I am Submitting our
good offer

QUOTATION Physics Semester - 2

Experiment :

1.Helmholtz Resonator Complete Set up -

Apparatus Required

Speaker Microphone on stand, Glass Separating Funnel with chargeable neck,
Digital AC Voltmeter, Tuning Fork Frequency Generator, 100 Hz - 1 MHz Rs. 9,000-00

Experiment :

2. Frequency of A.C. using sonometer.
3. Velocity of sound through the material of wire using sonometer.

Apparatus Required

Sonometer Teak Wood, Brass Fitting Rs. 1,840-00
Slotted Weights 500 gms X 5 Rs. 650-00
Stepdown Transformer and Electromagnet with Stand Rs. 1,880-00
Tuning Fork Rs. 1,250-00

Experiment:

4. Characteristics of Loud speaker (Tweeter and Woofer). &
9. Characteristics of Microphone.

Apparatus Required

Characteristics of Loud Speaker and Microphone (Training Board) Rs. 8,000-00
Woofer and Tweeter and mid range speaker on stand Rs. 1,500-00
Digital sound level meter Rs. 8,500-00
Function Generator 200 MHz Rs. 7,500-00
